(Hurry! Limited Time Offer — Thanksgiving Day
and Black Friday - Only!)

Order Now!

Dear Parent,

A while back, I got together with a group of other concerned parents to tackle all of the problems that can arise when kids get their hands onto cell phones. You know... calling friends and text messaging at all hours (including strangers), surfing the web (even the inappropriate sites) *ALL WITHOUT YOUR KNOWLEDGE!*

So we created a fail-safe plan that gives kids a full-featured cell phone and keeps them safe with the latest technology, like fully customizable parental controls and phone tracking using GPS. But that's just the start. We insisted on all the safety features while eliminating the requirements of a typical cell phone plan to give you the very best solution at the very lowest price. The result is a new service called kajeet and it's taken parents by storm!

**Give your kids a great cell phone and
give yourself peace of mind!**

Click Here to View Our Phones

Kajeet is a "Pay-as-you-go" service. There are no expensive contracts and no activation fees — no surprise bills whatsoever! You choose how much you want to spend every month by giving your kids a monthly "allowance". They can use it towards minutes, text messaging, games, ring-tones and more! We've conveniently packaged our most popular options into several plans for you to choose. ([CLICK HERE](#) to view).

Then, we give you a whole suite of parental controls absolutely FREE so you can manage exactly how your kids use their phone. With kajeet, you can:

- **Block any numbers you don't want your kids to call (like those "rowdy" kids)**
- **Block any numbers you don't want calling your kids (like the town bully!)**
- **Set the hours of the day your kids can and can't dial out or receive calls (no matter what you decide, they can always call 911 in an emergency)**
- **Block text messages to and from any phone number you choose**

Keep tabs on your kids with GPS!

One of our most popular features is our GPS Phone Locator. This incredible service lets you locate your child's phone through our convenient web-based system, so you keep tabs on your child any time of the day. Plus, you can set up automatic email alerts that tell you where your child's phone is up to five times per day!

You might think that all of these features come with a big price tag, but you'd be wrong. Kajeet's "Pay-as-you-go" plans start as low as just \$4.99 per month! And, cell phone reception is NEVER an issue because every kajeet phone runs on Sprint's nationwide PCS network*, so your kids get all of the great coverage you'd expect.

**Try kajeet with our special, limited-time
"Double-Value" offer!**

Click Here to View Our Phones

We've put together this special offer to introduce you to kajeet. We start with a special discount of 15% off of ANY of our phones — Yeah, we've got all the big names... Samsung, Sanyo and LG to name a few. Then, we add FREE shipping so you can get your phone well before the holidays arrive. Top it off with a full 30-day money-back guarantee, and you've got NOTHING TO LOSE! Just enter promo code "FRIDAY15" at checkout to receive our special "Double-Value" offer.

Thousands of parents already love kajeet. Come see what all the fuss is about. But hurry! Our supplies for each phone are limited and we won't be receiving any more stock before the holidays, so ACT NOW!

Sincerely,

Daniel J. Neal
CEO and Founder
(and proud parent)

P.S. Don't forget! This special Double-Value offer of 15% OFF ANY PHONE and FREE SHIPPING is valid on Thanksgiving and "Black Friday" only. Don't miss out on your opportunity to give your kids the gift they've been craving! [Order now and use promo code "FRIDAY15" to take advantage of our special "Double-Value" offer!](#)

*Although Sprint provides kajeet subscribers access to its wireless network and to its wireless services, kajeet is responsible to the kajeet subscribers for the service. Please call kajeet with any questions or comments about services.
